

LETTERS FROM PARENTS

Dear Rick , Scott and Your Dad,

Thank you very much for all of the time, talent and treasure that you have invested in Green Wave Basketball. It was an invaluable experience for our son, Brandon Roberts, to be a part of this year's team. Everything about Green Wave is top notch. The banquet and video at the end of the season are something we'll remember for a long time. We enthusiastically recommend this to any player or parent considering this opportunity. Thank you again for your dedication to teaching the sport of basketball and to building fine young men.

Sincerely,

Bob & Lori Young

Dear Rick and Scott

Thank you again for your efforts. As I have mentioned to you both, your support for kids was outstanding! You both instilled confidence in young men at a very easily impressed stage of their lives. It was obvious to all the parents that you two were in this totally for others and not yourselves. From the first meeting when Scott said a heart felt opening prayer, I knew our son and all the young men were in very good hands. Thanks to your parents as well for instilling great values in you, such as hard work, humility and thankfulness.

Good Luck and Blessings

The Watson Family

Dear Scott and Rick,

Ellie and I wanted to thank you for all you have done. We were impressed with your program and how much you dedicate yourself to it. You inspired himself and learned a lot also. It is always a blessing to parents for their children to have positive adult role models in their lives. Thank you again.

Sincerely,
Thomas LaBelle
