

LETTERS FROM PARENTS

Dear Scott and Rick,

Pat and I would like to thank you for the most impressive AAU basketball season we have experienced. Not only did our son have the best basketball season, it came with such organization, dedication and hard work. Nick needed a year, before high school, with a coach and organization that provided the knowledge and skill to make Nick a better player. Not only is Nick that better player but you made it easy on us parents. The organization you two have is unbelievable. The maps, towels, drinks, stats on the Internet, video.....

Thank you both, we enjoyed every game, practice and time we spent with you two. I wish you all the luck in the future. If you ever need a reference, please send them our way. We will be honored to reply.

Sincerely,

Jan and Pat Topmiller

Dear Rick and Scott:

In high school I played CYO Basketball for Coaches Phil Wilhelm and Bill Cobb and to this day I have the deepest respect for these men. I feel the boys that are fortunate enough to have the Greenwave experience will also never forget it. It was such a pleasure to watch the Greenwave team play basketball as it should be played. The teamwork, the unselfishness, and just the fun the boys had with you and each other was a wholesome experience. The organization of the Greenwave program is unsurpassed. The website and the computer printouts made it very easy to be a Greenwave parent. When some of your boys go on to be coaches themselves they will have learned exactly how to do it. I have one word to say about Greenwave, QUALITY. I have two words to say to the Hackler family, THANK YOU.

Jim and Madonna Holmes
