

LETTERS FROM PARENTS

Scott and Rick Hackler
Green Wave Basketball

Dear Scott and Rick:

I would like to thank you for inviting my son Taylor to play on the Green Wave team for the last two years. He learned a great deal, improved dramatically, and had an incredible experience. The hard work and dedication you both put into the program not only led to a state championship for the team, it prepared the boys on your team for high school ball.

Thanks also for the end of the season parties, the Big Dog shirts, and the time you invest in making sure your players get the most out of their participation.

Sincerely,

Jeff Donnell

Dear Rick & Scott,

I can't thank you enough for picking Taylor to play in your program. The two years with such a wonderful team was a great experience. Taylor not only developed his skills, he developed his confidence. Playing at such a high level made him realize his potential and develop a work ethic to be able to compete at that level.

Your organization and dedication to this program can be seen by the results of the players you are creating. And the time and energy you put forth is greatly appreciated.

As parents, Jeff & I had a wonderful time traveling with this team. The coaches, parents and players were so much fun to be around. Thank you for that experience.

I wish you the best and have confidence your future players and parent will enjoy your program as much as we did.

Sincerely,

Melissa Donnell
