

LETTERS FROM PLAYERS

To whom this may concern,

I was a player on the 1999 Green Wave Basketball team. It was a good experience for me! I got to meet other kids that I will be playing with next year. I will go to Roncalli High School next year along with six other guys on the team. The coaches, Rick and Scott, prepared me for the next year season when I will be a freshman. They will make you work hard in practice to make you earn your spot. Along with that, you will have fun with your teammates and just playing basketball. As a captain, you are the leader and coach on the floor. The coaches rely on you a lot. Work hard and you will earn the spot! This is a very good team to play on! You will have a great time! Just work hard and have fun! Also, I would like to thank Rick and Scott for taking the time to work with our team. I thank them for helping me get better as a player.

Green Wave AAU

Dear Scott and Rick,

I just wanted to thank you both for the 1999 AAU basketball year. I was really impressed with the cool uniforms and the Top Dawg shirts. I can honestly say this was the first year of playing basketball that my coach went one on one with me at every practice. I actually learned more in one season with you two, then my whole basketball career. Thanks for making me believe I was a scorer and picking me to be team captain.

Thanks again for choosing me to play Greenwave basketball. Good luck next year.
