

## LETTERS FROM PLAYERS

Dear Coach Rick and Coach Scott,

I would like to start off by thanking you for coaching me the past two years. It was a lot of fun and it was a great experience.

In 2000, of course you know that we won the State championship. That was probably the best I've done in a single season before. Our team was well prepared for the next Green Wave season. We had a lot of confidence going into the next year. We might have had a little too much confidence.

In 2001, we had a great season. We lost some key games but, we won more. Like when we played Hoosier Hoops, we probably gave them the best game they had all year. I believe we could have won another State championship, if a few calls would have went our way. I don't want to say any names but... Boonville! I probably watch the highlight tapes too much.

Anyways that is the past and I know you coaches will have more success in the future. I know this because you have great coaching strategy and you know how to prepare your players for bigger and better things.

There is one last thing I have to say. I wouldn't be the player I am today if it wasn't for Green Wave. Thank you for coaching me and good luck in the future.

Sincerely,

  
Pat Kuntz

---

To whom it may concern,

I played for coach Rick and coach Scott for two years (seasons of 2000 and 2001) on the Green Wave basketball team. They have really helped me develop my game and improve my basketball skills. Even though the practices were hard, the coaches made it fun. Our team was always competitive, and we even won the IBA 2000 State Championship. It was also a great experience because all ten of the Green wave players went on to make either the freshman or J.V. teams at Roncalli. It really helps the team because many of us are used to playing with each other. I want to thank both coaches for the tremendous amount of time and effort that they both invested in me. Anyone invited to play on this team should be honored because it will be a great experience, and the coaches are fantastic.
